#### **REVIEW (CRITIQUE) OF FIRES**

JAN 1990  
SEPT 1999  
MARCH 2005

A REVIEW (critique) shall be held following all major fires or incidents to determine if proper procedure was used and to see if a better method of fire extinguishment or procedure could have been used.

Reviews will be open to all Kennebunkport Fire Department members. The officer in charge of the fire shall be in charge of scheduling and running the review.

Reviews are not for the purpose of trying to find an area of mistake or to embarrass the officers in charge of the fire. No officer will run a fire situation the same as another. The purpose will however be to allow for discussion and to make future fires or incidents less difficult by better organization and understanding of the officers methods. All constructive comments are requested during reviews but personal attacks are not acceptable. It is perfectly acceptable to disagree but not acceptable to argue!

A report will be written for all reviews.
